Assemblyman Jim Frazier invites you to stop by Dino's Sandwich Shop (729 First Street) Saturday, September 28 between 8:00 a.m. and 10:00 a.m. to share your ideas, questions and concerns. For more information, please call (925) 778-5790.

Contra Costa Mosquito & Vector Control District - Fogging Notifications

When scientific surveillance and testing reveal a large mosquito nuisance or a threat of mosquito-borne illness in an area of Contra Costa County, the Contra Costa Mosquito & Vector Control District ("District") acts quickly to try to prevent infected mosquitoes from spreading dangerous diseases like West Nile virus to county residents. The primary tool the District uses to control adult mosquitoes is a public health pesticide spray distributed through an ultra low volume truck-mounted fogger operated by trained and certified public health technicians. As soon as the scientific criteria necessitates fogging for adult mosquitoes, the District lets the public know where and when the fogging will take place and what products will be used. This notification process is available to anyone who subscribes with an email address. [Click here to sign up for the District's automatic Email Notification System](#) or [click here to view current fogging activity](#).

Contra Costa Mosquito & Vector Control District, an independent special district and public health agency, is located at 155 Mason Circle in Concord. Call the District to report mosquito problems at (925) 771-6195, or visit their office between 8:00 a.m. and 4:30 p.m. to get FREE mosquito fish for ornamental ponds, horse troughs or neglected swimming pools.

PUBLIC WORKS

PG&E Projects within Brentwood

- Pipeline Safety Enhancement Plan Update:

As a part of PG&E's multi-year Pipeline Safety Enhancement Plan, PG&E is replacing an existing gas pipeline with a new 24-inch gas pipeline in Fairview Avenue. To date, PG&E has installed 3.5 miles of new pipeline, and completed welding inspections, hydro-testing and connection points.

PG&E is continuing work to clean and decommission the old gas pipeline.

Detours are in place and traffic delays should generally be expected between the weekday hours of 7:30 a.m. and 5:30 p.m. and Saturdays from 9:00 a.m. to 4:00 p.m. Construction schedules during the fall school break (Sept. 30 – Oct. 11) may be adjusted to help expedite completion of this project. For more information, please contact William Calvin of PG&E at (925) 421-5255. The latest traffic alert information associated with this work is available on the City of Brentwood's website by clicking on the following link: [Road Conditions](#).

- St. Andrews Road Project:

This project involves the replacement of a gas pipeline on St. Andrews Drive between Mountain View Drive and Spyglass Drive. Work is continuing to progress and is anticipated to be completed by late fall.

- Minnesota Avenue Project:

PG&E will be adding an additional service line to improve service along Minnesota Avenue between Central Boulevard and Deer Creek just south of Bristow Middle School. Work is continuing to progress and is anticipated to be completed this fall.

City staff will continue coordinating with PG&E to ensure there are minimal impacts to the community and school traffic, and will be paying particular attention to the cumulative effects of these projects on traffic in the neighborhoods.
